PROJECTS

- **FreshVegWeb - React-Based Vegetable Information Website**

[Live Demo](#)

Developed a vegetable-information web application using React.js, Vite, Tailwind CSS, and JavaScript. Implemented reusable UI components, integrated Redux for state management, and optimized images for improved performance. Structured the project with well-organized folders for components, pages, assets, context, and Redux. Deployed the website on Netlify for fast access and smooth user experience.

- **Astratto Website – Frontend Project**

[Live Demo](#)

Built a fully responsive website using React and Tailwind CSS
Implemented smooth UI animations using Framer Motion and GSAP
Applied component-based architecture and modern frontend practices
Focused on clean design, usability, and cross-device compatibility
Gained hands-on experience with deployment using Vercel and version control with Git/GitHub

- **Chatbot**

[Live Demo](#)

Built a chatbot application using JavaScript, and CSS, HTML.
Implemented conversational UI with smooth, responsive design.
Deployed the project on GitHub Pages for accessibility and easy sharing.
